HUGE LINER GOES TO THE BOTTOM

With Hundreds Of Sleeping Passengers.

EMPEROR OF IRELAND VICTIM

Was Rammed Amidships By Collier in the St. Lawrence River.

SURVIVORS BROUGHT ASHORE

Rimouski, Que., May 29.—Sinking in ninety feet of water within fifteen minutes after being rammed amidships in the upper reaches of the St. Lawrence river early to-day, the Canadian Pacific Liner Empress of Ireland carried down with her more than 900 of her passengers and crew. Of the 1,387 persons on board the liner only 423 are known to have been saved, making the probable death list 954.

Looming up through the river mists, as the Empress of Ireland was lying to, waiting for the fog to lift or day to break, the Danish collier Storstad crashed bow-on into the side of the big Canadian liner, striking her about midway of her length and ripping her side open clear to the stern.

The crash occurred not far from the shore off Father Point, 150 miles from Quebec, which the Empress of Ireland left yesterday afternoon bound for Liverpool and ten miles from this point on the St. Lawrence. In reality, therefore, although the liner was heading for the sea and the collier coming in from it, the disaster was not one of the ocean, but of the river. Unlike the Titanic victims, the Empress of Ireland's lost their lives within sight of the shore—in land-locked waters.

Immediately the ship's crew recovered from the shock of the collision and it was seen that the liner had received a vital blow, a wireless "S. O. S." call was sent out.

The hurried appeal was picked up by the Government mail tender Lady Evelyn here and the Government pilot boat Eureka at Father Point and both at once set out to the rescue. So deep was the hurt of the Empress, however, and so fast the inrush of waters, that long before either of the rescue boats could reach the scene, the liner had gone down. Only floating wreckage and a few lifeboats and rafts from the steamer, buoying up less than a third of those who had set sail on her, were to be found. The rest had sunk with the liner, had been crushed to death in the Storstad's impact with her, or had been forced from exhaustion and exposure in the ice-chilled northern waters to lose their hold on bits of wreckage that had supported them and had drowned.

Only a few persons were picked up by the Storstad, which was badly crippled herself by the collision; and these were brought here by the collier, together with those saved by the Eureka and the Lady Evelyn. Twenty-two of the rescued died from injury or exposure; of the others, most of them had jumped in the boats or plunged into the water from the sinking liner scantly clad, were freely given such clothing as the town could supply, and later those that were able to travel were placed on board a train and started for Quebec, where they arrived to-night.

Accounts agree that in the brief space of time—not more than fourteen minutes—between the shock of the collision and the sinking of the liner there was little chance for systematic marshalling of the passengers. Indeed, everything indicates that hundreds of those on the steamer probably never reached the decks. Very few women were among the saved, not more than a dozen, the lists make it appear.

"It all happened so quickly that we did not really know what was going on and nobody had time to cry 'women first,' one of the passengers told Capt. Bellinger, of the rescue boat Eureka.

"The stewards did not have time to rouse the people from their berths," the survivor added. "Those who heard the frenzied calls of the

officers for the passengers to hurry on deck lost no time in obeying them, rushing up from their cabins in scanty attire. They piled into the boats, which were rapidly lowered and were rowed away. Many who waited to dress were drowned."

The horror of the interval during the time the Empress was rapidly filling and the frightened throngs on board her were hurrying, every effort to escape before she sank was added to by an explosion which quickly followed the ripping and tearing given the liner by the Storstad's bow. According to one of the rescued the explosion, probably caused by the water reaching the boilers, bulged the liner's sides and catapulted people from her decks out into the sea. The ship's heavy list as the water pouring in weighed her on the side she was struck, made the work of launching boats increasingly difficult from moment to moment and when she finally took her plunge to the bottom, scores still left on her decks were carried down in the vortex, only a few being able to clear her sides and find support on pieces of wreckage.

From all accounts Captain H. G. Kendall, of the Empress of Ireland, bore himself like a true sailor as long as his ship stood under him. He retained such command of the situation it appears, that while the Storstad's stem still hung in the gash it had made in the Empress's side, Captain Kendall begged the master of the collier to keep his propellers going so that the hole might remain plugged. The Storstad, however, dropped back and the Empress filled and foundered.

Captain Kendall stood on his bridge as the ship went down. One of the boats from the liner picked him up and he directed its work of saving others until the craft was loaded. The captain was injured in the crash and suffered from exposure, but his hurts are not dangerous and his speedy recovery is expected.

Story of the Captain.

Rimouski, Que., May 30.—While final tabulations of the casualties in the sinking of the ill-fated steamer Empress of Ireland were being made to-day, showing that 463 of her passengers and crew had been rescued and 964 had perished, Capt. Henry George Kendall, of the liner, was telling his story of the disaster at an inquiry conducted by Coroner Pinard here.

Capt. Kendall, in substance, declared that he had taken all possible precautions against a collision. His ship had been stopped, he gave the requisite signals when the Danish collier Storstad, which dealt the blow which sent the Empress to the bottom, was still two miles away, but the collier kept on through the fog which settled down soon after the two vessels sighted each other, and had rammed the Empress of Ireland while the latter was virtually motionless. Then, despite his plea to the master of the collier that he run his engines full speed ahead to keep the hole in the liner's side plugged with the Storstad's bow, said Capt. Kendall, the Danish vessel backed away, the water rushed in, and the Empress sank.

Capt. Kendall, who stuck to the bridge of his ship to the last, and, after being picked up by a lifeboat aided in saving a boatload of drowning persons from the wreck, took up his story of the disaster from the point at which the Empress of Ireland, bound from Quebec for Liverpool, had dropped her pilot Thursday night at Father Point, near which the disaster of yesterday morning occurred.

Chief Engineer Sampson, who remained in the engine room until the lights went out and there was no more steam, he said. "I had great difficulty in reaching the decks owing to the great list of the ship. No sooner had I got on the deck when the boats of the port side which had broken loose swept down on top of us and carried us under water. When I came to the surface I found myself under a lifeboat and entangled in wreckage. I was finally pulled into one of the boats and could see the collier about a mile and a half away. Immediately before the collision we went full speed astern and then stopped. Then I put the order full speed ahead, but had only started the engine when the crash came. We then kept her full speed ahead to try to reach the shore as long as we had steam. Owing to the steam failing and the lights

also, we could keep the engines going only a few moments.

"There was no explosion of any kind. I saw no reason why the collier did not keep much closer than she did, as, if she had, there would have been many lives saved. I am also of the opinion that had she stuck to us we should have reached the shore."

The Other Side Is Told.

Montreal, May 31.—The other side of the story of the collision in the St. Lawrence River last Friday morning between the Canadian Pacific liner Empress of Ireland and the Norwegian collier Storstad, which resulted in the sinking of the liner with the loss of more than 900 lives, was told to-night.

Capt. Thomas Anderson, of the Storstad, had remained silent on the subject of the collision until reaching Montreal, his destination, to-day. After he had made a report to representatives of the Dominion Coal Company, charterers of the vessel, and of the owners of the steamer, a statement based on his declarations to them was given out to-night.

According to the statement, when the Empress of Ireland was sighted and fog shortly afterward enveloped both vessels, fog signals were exchanged and the Storstad's engines were stopped.

When she lost sight of the Empress in the river mist, the latter's course had been set so that the vessels would pass each other safely. The Storstad's course remained unaltered, the statement adds, but when the Empress of Ireland was next seen she was close at hand on the port bow of the collier "and making considerable headway."

It is declared that the Storstad's engines were at once reversed and that her momentum was nearly checked when the vessels came together.

As for the charge that the Storstad backed out of the hole she had torn in the Empress, the statement declares that it is not true. Her engines were ordered ahead to hold her against the liner's side, but the headway the Empress was under, twisted the collier's bow out of the gash, it is added. And not only did the collier remain as near the scene of the collision as was safe, but everyone of her boats was lowered, despite her own damaged condition, and saved 350 of the liner's passengers and crew.

The statement concludes with asking that judgment regarding the blame for the disaster be suspended "until an impartial tribunal has heard the evidence of both sides."

NATIONAL STATE GUARD

TO CAMP AT LEXINGTON

Lexington, Ky., June 1.—Lexington is to have the annual encampment of the Kentucky National Guard, which will be held this year July 1 to 12 inclusive. At a special meeting of the directors of the Commercial Club an agreement was reached between the club and the officials of the traction company which operates the city and interurban lines by which arrangements were made to furnish grounds and to equip the grounds for the encampment and the proposition was then submitted to Adj't. Gen. J. Tandy Ellis, who, in behalf of the State and United States Government, accepted the proposal and designated Lexington as the place for the encampment.

No More Pay for Convicts.

Frankfort, Ky., May 30.—Under a decision of the court of appeals the convicts will draw no more pay from the State.

The court held that convicts held in the penitentiaries are not entitled to back pay from June 15, 1910, to August 1, 1912, when the prison commission first allowed them part of their earnings. The court declared that the act was unconstitutional, because it does not conform to title.

Bequeathed \$5,000.

Buffalo, N. Y., May 30.—Mrs. Lizzie Young, of Owensboro, has been bequeathed \$5,000 through the will of her cousin, the late Martin B. Coombs, of New Hartford, N. Y. Mr. Coombs expired three weeks ago, leaving an estate valued at \$248,541.06.

Five other cousins of the deceased received similar bequests. Two women of no relation also received \$5,000 each.

Candidates in the August primary must file their petitions with the Secretary of State to get their names on the ballot by June 21 at midnight.

TOLL: 66 KILLED AND 48 WOUNDED

Result In the Colorado Strike Field.

NO NEARER SETTLEMENT NOW

Than Weeks Ago—Union Officials and Operators Is-Sue Statements.

COST OF TROUBLE, \$12,000,000

Denver, Colo., May 31.—Settlement of the strike in the Colorado coal fields apparently is no nearer realization now than it was weeks ago, according to statements by both union officials and mine operators to-day.

Sixty-six persons are known to have been killed and forty-eight wounded in the numerous battles and disorders since the miners went on strike on September 23, 1913. Classified, eighteen strikers, ten mine guards, nineteen mine employees, two militiamen, three non-combatants, two women and twelve children lost their lives. Twenty had been killed prior to April 29, the date of the battle of Ludlow, and forty-six were killed during the next ten days, when Federal troops stopped the warfare.

The cost of the eight months' industrial conflict is variously estimated at from ten to twelve million dollars. The figures include the sum of \$700,000 representing the State's expense in maintaining State troops in the field until the arrival of the Federal forces; an estimated cost of \$6,925,000 to the union, and a loss of "several millions" claimed by the operators. At present 1,717 United States troops are guarding the mining properties.

Figures compiled by James Dalrymple, State Coal Mine Inspector, show there were employed in the coal mines of Colorado for the first three months of 1914 an average of 10,149 miners, as compared with 14,035 for the same period in 1913. The total production for the first three months of 1914 was 2,817,675 tons, against 3,638,436 tons for the same period a year ago.

From the same source it is learned there were 12,346 men working in the mines last September when the strike was called; 7,696 in October, the first full month following the strike, and 10,146 in March, 1914.

Against these figures stand the claims of John R. Lawson, member of the international executive board of the United Mine Workers of America, that approximately 11,000 men quit work in response to the strike call last September and that about 8,500 men are still on strike. He attributes the decrease to men leaving the State, adding that "few have gone back to work, their loss being more than offset by those who have joined the strikers."

The original demands of the United Mine Workers of America may be summarized as follows:

First—Recognition of the union.

Second—A 10 per cent. advance in wages.

Third—An eight-hour day.

Fourth—Pay for "narrow and dead work."

Fifth—Check weighman.

Sixth—The right to trade where desired.

Seventh—Enforcement of State mining laws and abolition of the guard system.

"There has been no changes in the nature of the demands since the strike was called," said John R. Lawson, union leader. "I do not know of any prospects of a settlement. The miners will never go back to work without recognition of the union if they follow my advice. The right to organize, an eight-hour day, check weighmen and the right to select trading and boarding places are State laws, but they are not enforced."

Holding that the chief demands of the United Mine Workers, with the exception of union recognition, are guaranteed by statutes, the operators maintain in their original position, namely: Refusal to treat with representatives of the Union Mine Workers or recognize the union.

"I dreamt last night I was dying," said Senator Bradley, "and never has one of my important dreams failed to come true. My end is near."

So, too, at the conclusion of his speech on the Panama Tolls Bill he remarked to close friends that the address was his closing effort, and he would not be able to speak again before his death. Finally, just be-

fore Mr. Langley left for Kentucky, several weeks ago, Senator Bradley spent an evening with him and said:

"This is my last visit to you."

So strong was this premonition that when early in his last illness a suggestion was made that he be removed to a hospital, Senator Bradley demurred, explaining to his physicians:

"I am going to die, and would rather die in my apartment."

The physicians tried to encourage him, but he said "I know."

Senator Bradley frequently recounted instances in which his dreams "had come true," and he was a firm believer in the visions of his sleep.

EXTRA HELP NEEDED TO HARVEST WHEAT CROP

Washington, May 30.—Acting on information of Chas. L. Dougherty, labor commissioner of Oklahoma, that from 12,000 to 15,000 men would be required to help harvest and thresh the wheat crop in that State, Secretary Wilson to-day ordered bulletins placed in postoffices throughout the country, describing Oklahoma's needs.

Inquiry has been made of State officials in Kansas, Nebraska, North and South Dakota, Iowa, Wisconsin, Missouri and Minnesota about their requirements for extra help during the harvest time. Commissioner Dougherty stated in a telegram to Secretary Wilson that wages in Oklahoma would be from \$2 to \$2.50 a day with board, and that of the 12,000 or 15,000 men required for the wheat harvest, 85 per cent would find additional employment handling the forage crops, promising four to six months steady work.

MUHLENBERG COUNTY IS NOW ON THE MAP

WHEN VERDICT WAS READ

Greenville, Ky., June 1.—The United States Geological Survey has put Muhlenberg county on the map. In February of this year the survey completed a map of six quadrangles, which when placed together, make a complete map of all of Muhlenberg County, part of Ohio county, Butler, Todd, Logan, Christian, Hopkins and McLean. The map shows the location of every stream, public road, church, school house, mine and railroad. It also shows the various elevations in different localities. The Government was seven years in completing it, and it is most comprehensive and of great value. Congressman R. Y. Thomas has procured 125 copies of the map for free distribution. There is great demand for the maps by those who recognize their value.

Immediately after the verdict was announced Baxter dropped his role of insanity and laughed over the way he "put one over" as he expressed it, on the commission which passed on his sanity. He said he did not want to be sent to the electric chair.

Baxter's victims, J. A. Smith and his wife and son, Oscar, the latter aged 16, were shot down in cold blood when Smith refused to admit Baxter to their home, where the latter had gone to see his wife, from whom he was separated. Mrs. Baxter, behind a door, witnessed the murders. She secured a divorce after his arrest.

WOMAN 106 YEARS OLD HAS BIRTHDAY DINNER

Whitesburg, Ky., May 30.—Perhaps one of the most remarkable and long-lived old women in the State to-day is "Aunt" Chrissie Stalard, residing near Hilliard, Letcher county, who a few days ago celebrated her 106th birthday, in which many of her descendants took part. The guests, too, enjoyed a fine dinner prepared by the old woman's own hands, in her old-fashioned way, on an old-fashioned fireplace. "Aunt" Chrissie is still remarkably well preserved for a woman of her age and bids fair to live many years longer. She is a widow, living alone near the home of her oldest son, now more than 80 years old. "Aunt" Chrissie manages to tend a small garden each year and makes her own support. On the occasion of her 101st birthday "Aunt" Chrissie sat for her first photograph.

BRADLEY SAW DEATH COMING IN HIS DREAMS

Washington, May 30.—On the return of Representative John W. Langley to-day it became known that Senator Bradley had entertained a premonition of death so strong that he had intimated to Mr. Langley some time ago that his end was near.

"I dreamt last night I was dying," said Senator Bradley, "and never has one of my important dreams failed to come true. My end is near."

So, too, at the conclusion of his speech on the Panama Tolls Bill he remarked to close friends that the address was his closing effort, and he would not be able to speak again before his death. Finally, just be-

Hardy Apple Tree.

Whitesburg, Ky., June 1.—An old apple tree, still bearing, can be seen on the little mountain farm of W. B. Webb at Sergeant, near here. The old tree, mammoth in size, was planted by the late Jason L. Webb, the father of the present owner, about ninety years ago, and, according to the records, the tree has been continuously in bearing for eighty-five years, having never missed a single season.

Shake Off Your Rheumatism.
Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly

TERRIFIC SPEED MADE BY AUTOS

In the Trial Dashes At
Indianapolis.

PREVIOUS RECORDS SMASHED

Goux Drives His Car At Rate
of Over 98 Miles An
Hour.

OTHERS ARE ALONG WITH HIM

Indianapolis, May 28.—Jules Goux, driver of Peugeot Car No. 8 in the elimination trials at the Speedway, to-day, broke all speedway records of the United States in every class except the straightaway record. Goux made the trial lap in 1:31.71, which is a speed of 98½ miles an hour. He was timed by stop watches on the back stretch, and was driving his Peugeot at 118 miles an hour. Goux won the five-hundred-mile race at the Speedway last year.

The lap record was broken twice earlier in the day. Rene Thomas, in Delage No. 16, made the lap in 1:35.20, a speed of about 95½ miles an hour. Teddy Tetzlaff, a few minutes before Goux went on the track, lowered Thomas's official record to 1:33.40, a rate of about 97 miles. The former official record was made by Bob Burman in 1912. His time was 1:37.40.

Spencer Wishart, in Mercer No. 19, circled the Speedway in 1:39.73, which is more than 90 miles an hour.

Christiaens, in Excelsior No. 9, traveled the lap in 1:38.67, a speed of about 92 miles an hour.

Mercer No. 22, Pullen driver, on its second trial, was sent around the track in 1:46.40. Maxwell No. 25, Carlson driving, made the lap in 1:36.60.

Joe Dawson, in Marmon No. 6, made the lap in 1:36.20.

Barney Oldfield made his second effort to-day in Stutz No. 3, completing the lap in 1:46.60. He protested the lap, declaring another car was on the track. The officials recognized his protest and the second trial will not count.

Bob Burman, in Burman Special No. 17, while making his trial run, threw a tire at the south turn while going at a speed estimated at 95 miles an hour. He succeeded in keeping his car on the track.

Burman later made another trial and completed the lap in 1:39. It is believed that 30 of the 40 cars entered, which will be permitted to start in the race Saturday, will have to make the lap in 1:45 or better to qualify.

Drivers and rate of speed shown in the official tests to-day were as follows:

	Miles per hour
Driver	hour
Oldfield	85
Dawson	93
Thomas	94
Burman	90.5
De Palma	83
Tetzlaff	96.5
Goux	98
Christiaens	90.5
Guyot	87
Wishart	90.25
Pullen	85
Carlson	94
Keene	86.75

Always Lead To Better Health.

Serious sickness starts in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. They Purify the Blood—prevent Constipation, keep Liver, kidneys and bowels in healthy condition. Give you better health by ridding the system of fermenting and gassy foods. Where Trouble Lies.

Estill county is now 105 years old. The wheels of progress are stuck in the mud and developments are retarded or entirely stopped throughout the greater part of the county simply because we have not seen fit to spend some money and construct some real roads.—Irvine Sun.

RELIGIOUS SERVICES IN ARMY ARE INADEQUATE

Neither chaplains nor welfare secretaries are on board some of the battleships now in Mexican waters, nor is provision made for the recreation of enlisted men as in the case of men in the Spanish war, beyond that provided by the Government itself. Things religious in army and navy are at the time of the breaking out of the Mexican difference, in

a confused and undetermined state. All has awaited the action of Congress, which has not acted. The situation causes not a little anxiety to religious leaders of all bodies.

Strong efforts have been underway for months, backed by Catholic and Protestant leaders, through Cardinal Gibbons for the former and the Federal Council of Churches for the latter to secure increase in the number of chaplains to one for every 1,000 enlisted men. Committees have reported favorably, but the bill is not yet passed. Consequently, no more than the old number of chaplains, the same number as back in 1845, are available.

The Y. M. C. A. has had welfare secretaries on two warships, but none was sent with the fleet going to Mexico, pending decision of the larger matter of regular chaplains. If Mexico be invaded and American enlisted men remain there long, the whole question of their spiritual and recreational welfare is yet to be taken up.

WANTS THE ENGLISH SPARROWS SENT BACK

There is something that will strike a great many people like sentimental tommyrot in the suggestion that the celebration of the hundred years of peace between the United States and England be marked by returning to

Great Britain the battle flags and other trophies captured from invaders during the Revolution and the War of 1812. The English cannot restore the American relics, which their ancestors destroyed when they burned the Capitol at Washington.

The spoils of war which Jackson captured at New Orleans have more significance on this side of the Atlantic as attestations of American valor than they could possibly possess if sent abroad. To part with them in that way would represent an extinction of values. If it is desired to

make a pretty present to the British, why not send back the English sparrows, which would be worth as much to them as they are to us?—[St. Louis Post-Dispatch.]

Chamberlain's Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over.

It has no superior for the purposes for which it is intended. Buy it now. For sale by all dealers. (Advertisement.)

ERRORS IN NEWSPAPERS —ALSO OTHER MISTAKES

The editor of one of our exchanges says he doesn't want anyone to send him any more copies of his paper in which they have found mistakes. If they find a perfect copy, however, he offers a big reward for it. Same with us. If the critics who hunt for mistakes in the papers would find them all, they would be kept "busy." We'll be pleased to buy copies of any paper which can be proven entirely free from errors, either typographically or in statement of fact. We will be pleased to find a merchant who never made a mistake in putting up an order; a lawyer who never lost a case through his own error; a doctor who never made a mistake; a post-office official who never put mail into the wrong box; a woman who never forgot to put in salt while cooking, or to put tea in the teapot before putting in the water.

RIBBONS KEEP TRIPLET GIRLS FROM A MIXUP

Triplet girls, born three weeks ago to Mr. and Mrs. William Lawler at their home, near Bono, Washington county, Ind., north of New Albany, are of equal size and so much alike their mother uses ribbon of different colors on their garments as a means of distinguishing them. The fear that they will become mixed in spite of this precaution has been the subject of much discussion among the hundreds of neighbors who have visited the Lawler home to see them. Tipping the scales at fourteen pounds each, they are among the most robust babies under a month's age that are seen in Southern Indiana. Many beautiful names have been suggested for them.

Four-Legged Chicken.

Danville, Ky., May 25.—W. H. Pipes, a prominent citizen of this city, has a frying-sized chicken which has four fully developed legs and feet. It walks on all four feet at the same time, like all quadrupeds, and can outrun any chicken on the place. Mr. Pipes expects to keep the fowl as a curiosity and may later place it on exhibition as the rarest freak of nature on record.

Patience is a virtue. If you don't believe it, try to collect a debt.

SUNDAY HYMN

SINGER'S LIPS

Dropped Sweet Nothings,
Says Girl.

SEEKING \$50,000 HEART BALM

Tells of Taxi Ride and Kisses
Stolen By Evangelist's
Chorister.

LOVE'S DREAM RUDELY BROKEN

Chicago, May 28.—Moonlight boat rides, where a deep baritone voice blended with a soft baritone voice, automobile rides and stolen kisses formed a romance that has ended in a suit for breach of promise.

Homer A. Rodeheaver, the choir director for Evangelist "Billy" Sunday, tall, dark and handsome, met and loved Georgie W. Jay, short, blonde and pretty.

The meeting happened at Sioux City, Iowa, five years ago, and from that time until Christmas, 1911, the romance progressed until a whispered "Yes" given during an automobile ride in Chicago ended all uncertainty, the young woman says.

Much of the romance was carried on in the tabernacles of George Biederwolf, whose choirs Rodeheaver formerly led, and where repentants knelt on the floor of sawdust. Interspersed throughout the years were concert tours, little pleasure jaunts and visits to Miss Jay's mother, Mrs. Laura Jay, of 6320 University avenue.

The romance faded Christmas, 1911. Rodeheaver, while visiting at Miss Jay's home, told her that he could not marry her. Hence the suit for breach of promise, the sum being \$50,000.

"He told me it would ruin his career," said Miss Jay to-night. "He acted just as if the fact that my whole life dream was shattered amounted to nothing."

"Our love was the most beautiful thing in the world. We would go rowing on the Missouri river and sing together. I knew he loved me, and knew that he would love me when I first met him."

"I often wondered why he did not ask me to marry him, but knew he would some day; so I waited. One warm night in April three years ago Homer came to visit me. We took an automobile and started for home."

"During the ride he put his arm around me and told me he loved me and wanted to marry me. I whispered 'Yes' and he kissed me."

"We were happy in our love until

Christmas, 1911. Then he told me he could not marry me and it broke my heart. I have been a nervous wreck ever since, and the object of scorn of my friends. He told me his career in winning souls was more worthy than our love."

The suit is being heard by Judge Lockwood Honore, of the Circuit Court. According to Cyrus Heron, attorney for Miss Jay, Rodeheaver sought to justify his breaking of the betrothal by saying that Miss Jay was in ill health and unable to stand the strain of the life of a traveling choir leader.

Rodeheaver came to Chicago to-day from M. Huntington, where Billy Sunday is conducting an evangelistic campaign.

As soon as the jurors are chosen Miss Jay will take the witness stand and tell the story of the midnight ride in a taxicab across Chicago, which ended in an announcement of the engagement.

The United States Army.

The total number of commissioned officers, staff and line, on the active list in the army is 4,453, and the total enlisted strength, staff and line, is 76,911, exclusive of the provisional force and the hospital corps. The law provides that the total enlisted strength of the army shall not exceed at any one time 100,000 men. If necessary, the entire country could put into the field an army of from 12,000,000 to 13,000,000. [New York American.]

MEASURING A RIVER BY A VERY SIMPLE PROCESS

An engineer found himself summoned one day into the presence of his commander. Napoleon stood on the bank of a wide river, gazing across to where the enemy had planted batteries, which he desired to attack with artillery.

"How wide is that river?" was the question put to the engineer.

"Let me get my instruments," was the reply as he turned to go for them.

"I must know at once," the engineer insisted.

The engineer went down to the

level bank of the river, and, standing erect, gradually bent his head forward till the edge of his hat brim just touched the line from his eyes to the water line at the opposite bank of the river. Then, keeping his head bent as it was, he wheeled a quarter turn till his eyes looked along the hat brim and met the land at a point on the same side of the river on which he stood. Here he noted a rock or tree near the point at which his eyes met the ground, and, calling a soldier, directed that a stake be driven near that point, as he should direct. Then, by motioning just where to drive the stake, he fixed the point at which the line from hat brim and eye reached the bank. Turning to the emperor, "Your majesty," said he, "the distance from where I stand to the stake is the width of the river."

And so it was, as you can readily see. If the emperor did not promote that officer—why, then the story does not end as it should!—[St. Nicholas.]

THE FIGURES COUNT IN INSURANCE MATTER

Chairman Ruby Laffoon, of the State Insurance Board, attracted by strong editorial in the Owensboro Messenger of recent date, gave that paper the figures for the past twenty years relating to fire losses there. They show that the city has suffered in that time \$1,450,804 from fire losses, and has paid the companies \$3,172,230, leaving a gain for the companies of \$1,721,426. He says the companies' slogan is that "there is no way to reduce rates except by reducing fire losses."

Hawesville is willing to accept that test. We have not had any losses here in many years, and yet the rates continue at the old excessive ones. Just think of a rate of \$4.51 on good, substantial business buildings, with the best of chimneys, no flues and half a block from fire plug and the reel house, and with waterworks that will give an instantaneous pressure of over 100 pounds. It is oppressive and unjust, and the Clarion, like the Messenger is for Ruby and his economic policies, "feminist" the world and all its active bureaus whether from Louisville or Chicago. In fact we are one of the original "from Missouri's."—[Hawesville Clarion.]

Can't Keep It Secret.

The splendid work of Chamberlain's Tablets is daily becoming more widely known. No such grand remedy for stomach and liver troubles has ever been known. For sale by all dealers. (Advertisement.)

STRAWBERRIES BEING SHIPPED BY CARLOAD

Bowling Green, Ky., May 28.—The largest shipment of strawberries made this season was that of yesterday, when fifteen cars were sent out by the Warren County Strawberry Association to markets of the North and West. Among the cities to which the berries were sent are Buffalo, Chicago, Pittsburg, Toledo, Canton and Detroit. Another shipment of from eight to ten cars was made last night. One of these cars was sent to Omaha, Neb., which is the farthest distance Warren county berries have been sent this year.

As yet the dry weather has done practically no damage to the strawberry fields of the county, and they will bear up under the dry weather for a few days longer, but unless rain comes by the end of the week the crop will be crippled to a great extent.

Getting Round It.

Lincoln Steffens, in a recent address at Cooper Union in New York, said:

"The wife of a child labor millionaire once asked him in some little disgust:

"George, suppose you'd been born in the days when everybody had to live by the sweat of their brow. What would you do then?"

"I'd open a stand," George answered, "for the sale of handkerchiefs."

Curse of War.

Weighed with care, President Wilson and Mr. Bryan are taking on gray hair and the lines of age. Medication will succeed if it can be put through by these men, who are in a position to see the curse of war.—[Brooklyn Eagle.]

WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives.

Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—all exert the weakening influence that invites consumption.

To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood, and upbuilds strength to resist tuberculosis. Scott's Emulsion is nature's strength-builder. Refuse substitutes.

What "Bee Dee" Means

"Bee Dee" on the label means REAL VALUE inside the package, and RESULTS and SATISFACTION after the contents have been used. Always ask for "Bee Dee" when you buy a stock or poultry remedy. "Bee Dee" remedies are prepared from pure, medicinal ingredients, in a scientific way, and are genuine medicines that you can depend on.

McMillen Stock Farm,
Waco, Texas.
You can get them at
your dealer's. P. B. S.

MEXICO AFFORDS UNTOLD WEALTH

Land Could Maintain 100,
000,000 People.

HAS 767,000 SQUARE MILES

Metals Valued at \$5,000,
000,000 Have Been Taken
from Mines.

LITTLE LAND IN CULTIVATION

(A. G. Robinson in The American
Reviews of Reviews.)

The economic resources and the
industrial possibilities of the republic
of Mexico are alike beyond measure
or estimate. Its 767,000 square
miles, politically divided into twenty-
seven States, three Territories,
and one Federal district, now sustain
a population of approximately
15,000,000. Under conditions of
no more than fair development, the
country could easily maintain 100,
000,000 people.

From estimates and records, it
may be asserted that, up to the present,
metals valued at not less than
\$5,000,000,000 have been taken
from Mexico's mines.

The general trend of the great
mining region is from the northwest
to the southwest, covering an era of
approximately 1,600 miles in length
and about 250 miles in width.

There can be no question that the
quantity thus far taken out, in all the
centuries of activity, is small in compari-
son with what still remains. The
yield of silver, in recent years,
has averaged about \$40,000,000 a
year, and the output of gold about
\$20,000,000. The normal export of
mineral product is about \$90,000,
000. This is a little more than double
the exports of ten years ago.

No exact figures or reliable esti-
mates are available, but Mexico
counts its livestock, its cattle,
horses, sheep, goats, and swine by
the million head. In recent years,
a notable improvement appears in
breeds. The grazing lands are
there, in many millions of acres,
easily capable of supporting many
times the number of cattle at any
time hitherto maintained.

It has been estimated that Mexico
has not less than from 20,000,000
to 25,000,000 acres of first-class
timber. The hot and humid coast
strip affords mahogany and other
cabinet woods, dyewoods and gum-
woods; and the higher altitudes
carry the oak and the pine, cedar,
cypress, poplar, ash, beech, walnut
and many others.

Only a small part of Mexico's sur-
face is under cultivation. The natural
and cultivated products of the
tropical region, the coast strip and
its associated lowlands further in-
land, are sugar, coffee, oranges, ba-
nanas, cacao, pepper, vanilla, limes,
tobacco, henequen, rice, cocoanuts,
and pumerous others. Much of the
land suitable for these products is
now a dense jungle that would have
to be removed, as it has been else-
where, to make cultivation possible.
The jungle cleared away and the
land brought under treatment, the
conditions of life would be immeasur-
ably improved.

As far as soil and climate are con-
cerned, Mexico's lowlands may be
regarded as little short of ideal for
sugar production. The present total
sugar output of Mexico is about 160,-
000 tons annually.

Coffee has been cultivated in Mex-
ico for about a hundred years and
the present output ranges from 75,-
000,000 to 110,000,000 pounds a
year. In this industry also is seen
the inefficient method of cultivation.
It is probable that no labor is
necessary, Mexico's relatives in at least
half of the points required.

The soil and climate are thor-
oughly adapted to cotton production
throughout a large part of the re-
public. A serious drawback is en-
countered in the boll-weevil, a pest
that has crossed the border to the
serious injury of cotton growers in
our own Southern States. There
are, however, extensive areas in
Northern Mexico where, under ir-

rigation, a large output can be se-
cured with general safety.

Almost endless opportunities are
open for profit in the scientific and
systematic cultivation of rubber,
guayule, henequen (sisal), ixtle,
chicle, vanilla, cacao (the basis of
chocolate), and many other plants
of field and forest. One of the chief
articles of food among the Mexicans
is the tortilla, made from Indian
corn. The value of the corn crop
may be given, roughly as \$50,000,-
000 annually. Conditions of soil
and climate are entirely favorable
throughout a large part of the country,
but the crop suffers from fre-
quent drouths, and imports are re-
quired to meet the local demand. A
similar condition exists in the pro-
duction of wheat and other cereals.
The frijol, or Mexican bean, is also
a staple article of diet among all
classes. It is produced in millions
of bushels and practically the entire
crop is consumed within the country.
The cultivation of fruits and berries
also offers endless opportunity for
scientific industry. There is both
local and export demand for bananas,
pineapples, strawberries, oranges,
and many other fruits for the pro-
duction of which Mexico's conditions
are unsurpassed perhaps in any other
nation in the world. Tobacco-
raising is another industry of almost
unlimited possibilities.

The greater part of Mexico's com-
mercial history is a record of the
production and exportation of raw
finished products. A material
change has taken place in recent
years. Mexico is not yet a land of
extensive manufacturing interests,
but the shriek of the factory whistle
is becoming more and more a familiar
sound in Mexican ears.

NOW JUST WAIT TILL
TEDDY R. SEES THIS

A party of skaters were once pro-
gressing at considerable speed down
a certain frozen river in Canada
when, to the horror of his compa-
nions, one of the party was seen to
skate straight into a hole in the ice.
Before he could stop himself he had
fallen through it, and the sharp
edge of the ice cut his head clean off
his shoulders. The speed at which
he was going, however, caused his
head to skim along the top of the
ice, while the rest of his body trav-
eled at an equal speed beneath it,
until, by a stroke of good luck, the
severed portions met at another hole
farther down, and joined so exactly
that the unfortunate man came out
of his accident with nothing worse
than a severe cold. —[Strand Maga-
zine.]

Enough Left Over.

Mrs. Ives had entertained her
bridge club, and as she had to pre-
pare considerable food, having gotten
her hand in, she decided to invite
a few people, to whom she was
indebted, for the next evening.

She made out her list of guests
and sent her little daughter, Ele-
anor, to deliver the invitations. Ele-
anor's first stop was at Mrs. Jordan's.
She gave the invitation and as she

"Why, Eleanor, I'm afraid your
mother is undertaking too much, af-
ter having had the bridge club last
evening."

"Oh, I guess not," replied the
child. "I heard her tell father this
morning that there was stuff enough
left for three parties." —[National
Monthly.]

Second Mountaineer—Yep, I made a
big mistake. I ought to have married
a society woman. My woman is allus kicking because she
ain't got more children than dogs. —[Judge.]

CONTRACT FOR UNIFORM ACCOUNTING SYSTEM

Frankfort, Ky., May 25.—Contract for installing a uniform ac-
counting system in all public offices
handling the State's funds was let
here by the sinking fund commission
to Edward T. Perrine, former contr-
roller of the State of New York,
and Walker J. Nichols, of New
York, for \$3,600. They are to in-
stall the system in fifty-seven days,
beginning this week, when the con-
tract will be signed.

This system will reach all county
and magisterial offices, as well as
State departments, where the offi-
cials have anything to do with re-
ceiving or disbursing money belong-
ing to or due the State.

Our idea of democracy is not that
it gives the preference to a dirty
shirt.

A BIG JOB BEING SPLENDIDLY DONE

In the Accomplishments Of Wilson.

KNOCKER ALWAYS ON THE JOB

But Affairs of the Country, In Spite of War, Move Serenely On.

HISTORY MAY REPEAT ITSELF

(By Savoyard.)

Washington, May 29, 1914.

"Hope springs eternal in the human
breast; Man never is, but always to be
blest."

And so our Republican friends are
going about with a broad grin
on their faces, declaring that the
next election is a "formality;" that
the country will overwhelmingly
indignantly rebuke the Wilson
administration. There was a little
election in New Jersey that they carried
a day or so ago and they feel that the
thing is settled.

I do not believe it. For its
achievement the Wilson administra-
tion never had a match. The tariff
was plucked to pieces and patched
together in something like decent
order and the prophets of evil were
confounded by the result. Worse

than a fellow in Texas ever needed
a pistol this country for more than
half a century needed a banking sys-
tem. Without a flourish Mr. Wil-
son, as leader of the Democratic party,
set about that reform, and he accom-
plished it without a bâlk. There
followed a banking law that meets
universal approval.

Then the President insisted that
the smirched national honor, as ap-
pears in free tolls to that monopoly,
coastwise American shipping, be
made unspotted by repeal of the
subsidy. The popular branch of
Congress responded to him with en-
thusiasm and a magnificent majority,
also the Senate, as soon as the filibuster
is put an end to. To follow will be
some measures to regulate and discipline
the monopolies that are the creation of the G. O. P.
and that have fattened off the people
so long.

As for the Mexican situation, it
appears to be well in hand, though
the "jingoes" in Congress and out
of Congress have sought by all sorts
of taunts and lies to force the Presi-
dent into a war that would shed the
blood of tens of thousands of our
young men and cost posterity thousands
of millions of treasure. Can you
imagine one of these trumpeters,
from William R. Hurst and John
R. McLean down to and including
their vainest and faintest echo in
Congress, venturing his precious
carcass on the gory field of glory?
Hardly. There are limits to the hu-
man imagination. I believe it was
Philip of Macedon who executed a
fifer who would not fight himself,
but urged others to fight. A few
days of Philip would be good for
this country right now.

The office of President of this re-
public is the most tremendous civic
job the world has ever known. Detrac-
tion loves a shining mark, and the
tribe that congregates at Adul-
lam is numerous in the land. Though
a radiant angel from Heaven were
President, he would be slandered
and vilified—fair mark of knaves
who lie about him and victim of
their dupes who believe the knaves.
If the Republicans should prevail in
the election next November it would
be one of the most startling sur-
prises of all history, but history
would only repeat itself if the ma-
jority in the National House of Rep-
resentatives were reduced. For
more than sixty years that fate has
overtaken every President of every
party—Pierce, Buchanan, Lincoln,
Grant, Hayes, Arthur, Cleveland—
twice—Harrison, McKinley, Roose-
velt and Taft, and in the case of
many of them the mid-election dis-
covered an adverse majority in the
House of Representatives. It was so
with Pierce, Buchanan, Grant, (second
term), Hayes, Arthur, Cleveland (second
term), Harrison and Taft.

The present American electorate
is the most intelligent the world
ever saw. The vulgar demagogue
without principle and without shame
has less show in our country than
demagogue ever had before. The
statesman who would hold people
cheap and depend on ignorance and
prejudice to bear him into place and
power is building his house on the
sand. He may triumph for the
moment, but the people will not believe
a lie for long.

It would be marvelous if the Dem-
ocratic majority in the House of
Representatives, now so overwhelm-
ing, were not reduced at the ap-
proaching elections, but to say
that it will be extinguished is ab-
surd.

Representatives, now so overwhelm-
ing, were not reduced at the ap-
proaching elections, but to say
that it will be extinguished is ab-
surd.

Mr. Roosevelt will be back in a
few days, and then politics will be-
gin to get busy. Penrose, LaFol-
lette, Hearst, Tammany and Bris-
tow will have to stand around and
take notice when Teddy cracks his
whip.

Meanwhile, the Democratic ad-
ministration approaches the conflict
conscious of rectitude and confident
of success.

STRIKES \$16,000 GOLD

DIGGING A POST HOLE

Hickman, Ky., May 25.—To make
a jump from poverty to a fortune is
quite an unusual thing, but this is
what happened to George Betts, a
former Hickman man, born and reared
here, who found a fortune a few
days ago. Mr. Betts, who has resi-
ded in Mound City, Ill., for years,
purchased a lot there a short time
ago and on last Saturday started to
digging post holes to fence the lot in.
In digging a hole he struck a
hard object, which he found to be a
pot sealed up and upon opening it
found it contained \$40,000 in gold.
The money was evidently buried
there before the war, the coins being
very old ones.

Mr. Betts immediately took the
gold down to a bank in Cairo for
safe keeping. He was so overjoyed
that he telephoned his brother, John
Betts, who was at work, to stop
work, that he had found a fortune.

AT JUST WHAT AGE IS
MAN CONSIDERED OLD?

If the average length of life of
mankind continues to increase at the
same percentage of gain of the last
century, the time is not far distant
when 150 years will be the usual
span of a human life, says Byron C.
Utecht in the Technical World Maga-
zine. This may seem a remarkable
statement, but it is no more remarkable
than the facts upon which it is
based.

The average longevity in the United
States at present is placed at forty-
four years. Records kept in the
New England States show that in
1789 the average life was 35 years;
in 1855, 40 years; in 1895, 45 years,
and in 1903, 47 years. The increase
of longevity in Europe is still more
significant. In Switzerland in the
Sixteenth century the average life
was only 21.2 years, but in the Se-
venteenth century it had reached 25.7
years. The Eighteenth century was
marked by an average of 33.6 years,
while the Nineteenth century saw
an increase to 37.7 years.

Let the estimates of Prof. Fink-
einberg, of Bonn University, answer
those skeptics who gloomily assert
that people do not live as long as
they used to, that we are becoming
a race of weaklings and that civiliza-
tion is proving the undoing of
mankind. The average life over all
Europe in the sixteenth century was
18 years. Now it is 40 years, a gain
of more than 100 per cent in three
centuries.

The more progressive and civil-
ized a nation, the longer is the aver-
age life there, for it is shown conclu-
sively that the countries of the United
States, England, Germany, France,
Sweden and others have greatly
lengthened the chain of life, while
the average in India at present
is only 23.6 years. In 1881 the
average in India was 23.7 years and
two hundred years ago the average
was 19 years. China's average hu-
man life is but fractionally different
from that of India.

ANNOUNCEMENTS.

For Congress.

We are authorized to announce

HON. BEN JOHNSON.

Of Bardstown, for re-election to Congress from the Fourth Congressional District of Kentucky, subject to the action of the Democratic party. Primary, August 1, 1914.

We are authorized to announce

MR. JOHN W. BOYD.

Of Elizabethtown, for election to Congress from the Fourth Congressional District of Kentucky, subject to the action of the Democratic party. Primary, August 1, 1914.

Nowadays men do not marry
cooks as often as they used to.

In these days the high cost of
loving frequently seems to have a
good deal to do with the high cost
of living.

As a means of getting rid of undesirable neighbors, the employment of a beginner on the piano is said to work wonders.

For vain pictures of abnormal varieties, consult the poultry books, seed catalogues and fashion plates of the magazines.

They're paying a pretty good price
for dead flies over at Owensboro.
But still, an ounce of prevention is
worth a ton of flies.

Judging from scarcity of names
in the marriage license records, Cupid
seems to be rather a poor marksman
during the summer months.

A Paris doctor says rabbits, chimpanzees and babies afford the fly the best opportunity to spread his disease germs. Moral—spare the baby
and swat the fly.

Villa seems to have adopted the
plan of making "good" Indians and
soon as he captures a Federal officer
he fixes him so that thereafter
he will behave himself.

Ohio county's jail is rather a nice
looking building from the outside,
but there is little real security about
it on the inside. The inside cage
structure is old, dilapidated and
wouldn't be much of a problem to
an experienced or desperate inmate.
Court proceedings are little less than
mockery when jail quarters are notoriously insecure.

Political matters have been rather
quiet for the past few weeks or
months, but indications are that
things will begin to warm up pretty
soon and the August primary will
be full of interest and action. This
event is only two days removed from
the regular old-time August election
day, and will be participated in by
every political party that has a candidate
in the field.

Some astute philosopher years ago
made the assertion that the great
American people loved to be humbugged
and would pay most anybody nicely to do the job for them.
There may be no analogy in the comparison, but it seems that Kentucky
business men love to pay exorbitant
insurance rates, and some of them even
kick because the recent Kentucky
Legislature tried to save them from this extortion. Of course
every fellow likes what he likes.

Col. Roosevelt charges the Democrats
with failure to bring about industrial relief through the operations of a changed tariff. The Colonel, and those who take his side of the case, should stop and think a moment. The new tariff has been in operation only a few months, while the Republicans indulged in years of tariff tinkering—part of the time mostly upward—without giving the people promised relief. The Colonel should tell what was accomplished along tariff lines during his two terms.

Non-enforcement of the law seems to be the main trouble in the Colorado strike field. The operators declare that "the chief demands of the United Mine Workers, with the exception of recognition of the union, are guaranteed by statutes."

Adeline gave her age as 21 and Chicago as her birthplace. Her spouse, whose name is Peter Robinson, said he is 36 years old, and that he comes from Springfield, Mass. He weighs 90 pounds.

After passing a resolution indorsing prohibition over the protest of Dr. J. S. Lyons, of Louisville, and many other delegates, the Southern Presbyterian Church Assembly adjourned in Kansas City.

down like dogs when rights "guaranteed by the statutes" should be so easy to enforce.

BOYD FOR CONGRESS.

In this issue of The Herald will be found the announcement of Mr. John W. Boyd, of Elizabethtown, for election to Congress from this (the Fourth) district, subject to the action of the Democratic party at the primary election, Saturday, August 1, 1914. Mr. Boyd is a prominent young attorney of Elizabethtown who has been engaged in the practice of law since 1902. He served the county of Hardin in the capacity of County Attorney for two terms of four years each and made a most efficient and faithful officer. He is a loyal Democrat and has always done valiant work for his party. He is capable and reliable—his ability is not questioned.

Mr. Boyd comes of a very prominent and influential family and married into another prominent family of LaRue county. He has already aroused considerable following in the counties of the district. He asks that the Democrats give his claims fair consideration and will appreciate their votes.

STANLEY MADE A GREAT
SPEECH HERE THURSDAY

Owing to the farmers being busy with their work there was only a small crowd out to hear Congressman A. O. Stanley at the court house here Thursday afternoon, but those who were absent certainly missed a rare treat in the way of a speech. Mr. Stanley was here in the interest of his candidacy for the Democratic nomination for United States Senator, the primary for which occurs on Saturday, August 1st.

Mr. Stanley was introduced by Mr. Rowan Holbrook with a few felicitous remarks. Congressman Stanley is no stranger here, however, as he has spoken at Hartford several times before this occasion and has many warm friends in the town and county who will stand by him whenever he is a candidate for any office.

Mr. Stanley is an able man and he made one of the greatest speeches of his career here. His speech was logical and convincing in every detail and delivered with his splendid power of oratory, it brought frequent rounds of applause. He spoke of his work on the Trust Investigating Committee, a body appointed by Congress of which he was chairman and which did such splendid work in breaking up the giant business combinations of the country. He explained how it was so easy for John P. Morgan to make for himself and associates \$500,000,000 in a few hours.

Reverting to the charges brought against himself that he is a candidate of the liquor interests, supported by "blind tiger" men and money, Mr. Stanley denied this vehemently and proved in a very conclusive manner that he had always done valiant work in Congress for the temperance cause. He said he voted against the Webb-Kenyon bill because it was a valueless measure and unconstitutional, as has been proven in numerous instances. Mr. Stanley, as most people know, is a son of a minister of the Christian Church, and he spoke in a very touching manner of his father, the Orphan Brigade to which the old gentleman belonged, and of the splendid advice he gave his son when starting out in life, the main portions of which, at least, have been observed.

At the conclusion of his speech Mr. Stanley was warmly congratulated by a large portion of his audience. He remained in Hartford all day and left late in the evening for McHenry, where he made another splendid speech to a large audience of his warm supporters.

ADELINE WEIGHS 600
POUNDS AND PETER 90

Albany, N. Y., June 1.—Adeline La France, who weighs 600 pounds, bashfully squeezed her way through the door of the office of Marriage License Clerk John Carriere here today. Before the surprised clerk regained his composure a mere mite of a man appeared right under her nose and demanded a license so he and Adeline could get married. It was quickly made out and the pair, obtaining an automobile, started in search of a local magistrate to marry them. It was not long before they found one.

They were appearing in a side show of the Maccabees Carnival here, and their elopement has thrown the proprietor into a state of despair.

Adeline gave her age as 21 and Chicago as her birthplace. Her spouse, whose name is Peter Robinson, said he is 36 years old, and that he comes from Springfield, Mass. He weighs 90 pounds.

After passing a resolution indorsing prohibition over the protest of Dr. J. S. Lyons, of Louisville, and many other delegates, the Southern Presbyterian Church Assembly adjourned in Kansas City.

MAYO'S WILL GIVES ALL
OF HIS ESTATE TO WIFEVery Brief Document—No Light
Thrown On Size Of
Fortune.

Paintsville, Ky., May 30.—The will of the late John C. C. Mayo will not be filed for probate until June 1. The testament, however, has been disclosed and it is said to be one of the shortest documents that has ever been recorded in this county. The text of the will is as follows:

"While in full possession of my mental faculties, I desire to dispose of my property in the way that appeals to me as best for the objects of my bounty as well as my estate at my death.

"First—I therefore bequeath to my beloved wife, in whom I have the fullest confidence, my entire estate of every kind and description whatsoever.

"Second—I desire that she take up my business where I leave off, carry out my contracts fully (and for the purpose of ascertaining just what they are she will consult my friend, John E. Buckingham, only, who knows about them), and in order that she may carry out this provision of my will she is appointed executrix without bond, with full power to sell any and all property that is, her judgment, necessary or proper, including any or all of my estate, and also collect any and all sums due me and receipt for same; in fact, do any and all things that I could do with my property if living. I direct that she be not required to return any inventory of my estate.

"JOHN C. C. MAYO.

Witnesses:

GEORGE F. COPELAND,
JOHN E. BUCKINGHAM."

No light is thrown as to the size of the estate of Mr. Mayo by the will, as he directs no inventory of it be taken. It is estimated by his closest friends, however, that Mr. Mayo was worth close to \$5,000,000 when he died. The will was written in March, 1913. During the summer of last year Mr. Mayo took a trip to Europe.

SPECIAL SALE.

In order to reduce my stock I will sell for cash only until June 10, 1914, or as long as it lasts, as follows:

Produce Merchant,

Hartford, Ky.

ONLY LOCAL RAINS ARE
PROMISED THIS WEEK

Washington, May 31.—Generally fair skies, with temperatures above normal, were forecast by the Weather Bureau to-night for the entire country during the coming week.

"The rainfall during the week will be generally light and local," said the bulletin. "The next disturbance of importance to cross the country will appear in the Far West Tuesday or Wednesday, reach the great central valleys Thursday or Friday and the Eastern States near the end of the week.

"This disturbance will be attended by showers and thunderstorms and be followed by a change to cooler weather over the Northern States east of the Rock Mountains."

Stomach Troubles.

Many remarkable cures of stomach troubles have been effected by Chamberlain's Tablets. One man who had spent over two thousand dollars for medicine and treatment was cured by a few boxes of these tablets. Price, 25 cents. For sale by all dealers.

BROTHERS ARRESTED FOR
PASSING FORGED CHECKS

The Owensboro Inquirer of Sunday says:

John Henning is in the holdover, and Wilbur Henning in jail, on the charge of being implicated in the passage of a forged check. Both young men reside near Sutherland, and were arrested at their home on Friday night by Capt. Bell and Off-

icer Bell, and brought to the city. The examining trials are set, before Judge Haskins, for Monday morning.

On Saturday a week ago, a check was cashed by Troutman & Jesse for \$9. The name of J. P. Wimp was signed to the check, which has turned out to be a forgery. An attempt was also made to cash a check for \$4.50 at the United States National Bank. The officers are of the opinion that both the Henning boys are implicated in the affair. A thorough investigation will be made.

OWENSBORO POSTOFFICE

MATTER NOW SETTLED

The Owensboro Inquirer says:

After the failure of Representative A. O. Stanley to land either "Babe" Jett or Ernest J. Howell, as postmaster at Owensboro, on account of objection to both men by Senator James, an agreement was finally reached between the senator and Mr. Stanley, that Floyd J. Laswell should be appointed to the position.

It is said that Senator James submitted a list of names to Mr. Stanley any one of whom, he said, would meet with his approval. The names reported as having been submitted were Chief of Police Ike Short, Reuben Miller Holland, Mayor J. H. Hickman, Judge W. W. Owen and Floyd J. Laswell.

After perusing the list, it is said that Mr. Stanley finally wired his endorsement of Mr. Laswell, who will be appointed by President Wilson with the approval of Senator James. As soon as this is done, the appointment will be confirmed by the Senate and Mr. Laswell will receive his commission as postmaster of this city.

Mr. Laswell was not an applicant for the position, and it is known that neither Dr. Hickman, Miller Holland or Judge Owen had applied for the appointment.

Birthday Party To Sick Man.

Mr. Mike Bratcher returned from Illinois last January, and since that time has been sick at the home of his grandfather, Mr. John Lloyd, near Barrett's Ferry, Ky. Sunday, May 31, being his twentieth birthday, a dinner was given in his honor. By noon a crowd of 140 relatives and neighbors had gathered, bringing an abundance of edibles, and dinner was served in the beautiful grove near the Lloyd spring. After spending a pleasant evening together, the crowd dispersed, each feeling that this was a day long to be remembered. Mike was not able to mingle with his friends as he would have liked to do, but he seemed to enjoy the occasion as much as anyone.

L. G. B.

Stuffed Eagle For Ollie.

Washington, May 30.—A golden eagle captured in Colorado and killed and mounted by a Kentuckian, was received to-day by Senator James. It measures eight feet one inch from tip to tip and was obtained at Eads, Col., by Tice Hutsell, a former resident of Paris.

The big bird will be suspended over the desk of the Kentucky Senator in his office at the Capitol.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other States. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by druggists.

ly1

Senator Bradley's Estate.

Letters of administration in the matter of the estate of the late Senator William O. Bradley were granted to Dr. John G. South, of Frankfort, the son-in-law of Senator Bradley, in the County Court Monday afternoon. The value of Senator Bradley's personalty was estimated at about \$20,000. The value of the real estate of which he died possessed was not stated.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all dealers.

(Advertisement)

By keeping the Toll's Exemption Repeal Bill before the Senate continuously, administration leaders in the Senate hope to obtain a vote on the measure this week.

Bill Hammer, a Monroe county school teacher who was struck in the head by a pitched ball in a game at Tompkinsville, died as a result of his injuries.

Men's Oxfords

Do you realize how much more comfortable and pleasant a pair of Oxfords are in hot weather months than Shoes?

That they wear just as long, cost no more and look better?

With this idea in view, we are showing all leathers in quite a variety of lasts and in a wide range of prices.

Your hot weather Shoe necessities must be supplied. We are prepared to supply them to your advantage.

Our Boy's Oxfords

Are of the neat, dressy type that will appeal to and please our young Americans.

We don't see how cheap a Shoe we can sell. We see how good a Shoe we can sell. You won't grumble about the price after you have worn a pair of our Oxfords.

After all, satisfactory service is worth a great deal more to our customers than low-priced, easy-to-wear-out Oxfords.

E. P. Barnes & Bro.
BEAVER DAM, KY.

We Are Prepared

The hot, sultry months are now here. We are glad to announce to you that we are prepared to furnish you the warm weather wearables, so don't worry; be pleasant at all times. Our prices and qualities will bring smiles to your faces. Try us for a cure for hot weather worries. Read below:

Services at Hartford Methodist church next Sunday morning and evening. Subject Sunday morning: "God's Attitude Toward Honest Skepticism." An Epworth League will be organized after Sunday evening's service. Do not forget your envelopes.

At the graduation exercises of National Park Seminar, Forest Glen, Maryland, last week, Miss Mary Elizabeth Felix, daughter of Mr. and Mrs. F. L. Felix, of Hartford, was accorded first honor. This school has an attendance of about 250 and there were 47 graduates this year, Miss Felix among the number. She was the only listed Kentuckian in the bunch.

Two boys—Barnett Sullenger and Frank Petty—captured a black-throated loon, a species of rare bird in these regions, near the old mill dam above Hartford last Friday morning. They saw it sitting on the bank of Rough river and stunned with rocks before they succeeded in getting hold of it. The "bird" was as large as a mallard duck, with long, vicious bill, and weighed perhaps 8 or 10 pounds.

John A. Bratcher was arrested at Caneyville, Ky., and brought to Hartford Sunday night by Sheriff S. O. Keown. He was lodged in jail, charged with failure to support his family. The grit was sworn to by his wife, who lives at Rockport, this county. Bratcher's trial comes up before Judge Wilson next Saturday.

A HEAVY WIND STORM KILLED A YOUNG MAN

At Rockport, This County, Monday Evening—Residence Was Demolished.

A severe wind storm, accompanied in some sections by hard rain for a little while, passed over Ohio county late Monday evening. Here in Hartford the storm was hardly felt, only a few drops of rain falling and the wind blowing clouds of dust.

Over at Rockport, this county, however, the storm was harder and resulted in the killing of young Lionel Brown, 15 years old, son of Mr. and Mrs. Jack Brown, who lived on the outskirts of the town, in a northern direction. Mrs. Brown was also slightly injured, as was their little son Claude, we understand.

The storm came up suddenly while the members of the family were at home. It was about 5:30 o'clock and Mr. Brown had not yet returned from work at a mill. Their residence was situated on the side of a hill and the wind turned it completely over. It is said the house was rather new, but the foundations were insecure.

Young Mr. Brown was killed instantly when the crash came, bricks from a chimney falling upon his head and crushing his skull. He was a fine young man, universally beloved. His remains were interred at West Providence yesterday afternoon, after funeral at the church. Mrs. Brown is the only living sister of County Clerk Claude Blankenship, who rushed from Hartford to the scene of the disaster and was there within an hour or two after it happened. It was certainly a most deplorable affair.

A very heavy rain fell in and around Rockport, accompanying the wind storm.

NOTICE TO TRUSTEES.
The trustees of the county are notified to meet at the following named places on Saturday, June 6, 1914, at 9 o'clock a. m., for the election of teachers for the coming school year of 1914-15:

Educational Div. No. 1—Barnett's Creek Church.

Educational Div. No. 2—Fordsville.

Educational Div. No. 3—Dundee, Educational Div. No. 4—Mount Pleasant.

Educational Div. No. 5—Greenbrier.

Educational Div. No. 6—Centertown.

All trustees are urged to be present and assist in the selection of teachers for the different schools.

John/P. Foster
R. R. No. 7, Hartford, Ky.

BASE BALL.

Some ball game Saturday with Equality. They won 4 to 1. Nobody scored until the 7th inning, when they made 1, and 2 in the 8th and 1 in the 9th. Everybody got their money's worth Saturday, if we do lose. Luck was against us, as well as a good team.

There were several fine plays made Saturday by each side. Every Thorpe and Withrow were the stars for Equality, and Plummer, Richard and Taylor for Hartford. A barrel made a great throw to third base and nailed McDugan, who tried to make the base on a sacrifice. Thorpe tried to make it from second home on a single, but Plummer nailed him at the plate. Carvey Taylor made a fine play when he went behind third and backed Smith up and saved a score.

Withrow almost went up in the air in the sixth, but the fine catches made by W. Barnard and McDugan saved him, as the manager was feeding blue about that time.

Equality has added Thorpe and Reed from McHenry to their team, which makes the fastest in the field in this part of the county.

Cundiff caught a nice game for Hartford and there was not a streak

base on him. Blankenship played first, as his hand was hurt several days ago and he thought best to go behind the bat, but he played a nice game there.

Livermore will be here Saturday, so we will try and give another good game, as Livermore is playing fast ball this season.

KODAK PICTURES

THE DEMANDS OF LABOR WILL BE FORTHCOMING**Opposition to Amendments to Anti-Trust Measure In House Collapses.**

Washington, May 29.—Opposition among the Democrats to demands of labor for amendments to the Omnibus Anti-trust Bill virtually collapsed while the House was concluding general debate on the measure. Conferees at the White House and at the Capitol resulted in an understanding that when the House resumes final consideration of the bill Wednesday under the "five-minute" rule, Democratic members of the Judiciary Committee will be solidly behind amendments providing that:

Labor, fraternal, agricultural or consumers' organizations, shall not be "held or construed to be illegal combinations in restraint of trade under the anti-trust laws."

None of the acts specified in Section 18, forbidding injunctions against peaceable strikes and boycotts, shall "be construed or held to be unlawful."

The labor leaders in the House, as well as officials of the American Federation of Labor, who were in the gallery throughout the afternoon, gave up their fight for a specific declaration that nothing in the anti-trust laws should apply to labor unions. On the other hand, opposition to the amendments as now proposed melted away, members of the committee contending that they in reality added little or nothing to the bill.

The Anti-trust Bill will be disposed of, according to present indications, either Friday or the first part of the next week. The Railroad Stocks and Bonds Control Bill, the last measure on the anti-trust program, is expected by its sponsors to occupy the rest of the week. Then the three bills will be finally disposed of and sent over to the Senate.

Our Former Head Officials.

This country has two surviving former Vice Presidents, as well as two former Presidents, but the Vice Presidents are both old and infirm, while Mr. Roosevelt is still a young man at fifty-six, and Mr. Taft is, we believe, but one year older. Of the surviving Vice Presidents, Mr. Levi P. Morton, who served with Benjamin Harrison between 1888 and 1892, is ninety years of age, and lives quietly at his home in New York. Former Vice President Adlai Stevenson is eighty-nine, and is now ill at a Chicago infirmary.

Coughs and Colds Weaken the System.

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50c. bottle of Dr. King's New Discovery to-day. It will stop your cough. The first dose helps. The best medicine for stubborn coughs, colds and all throat and lung troubles. Mr. O. H. Brown, Muscatine, Ala., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50c and \$1.00 at your druggist.

(Advertisement.)

FAIR PLAY FOR THE JEW IN INDUSTRIAL AFFAIRS

Complaint is made that the Jews are getting control of everything in this country. For example, in the last thirty years they have swept all others aside, and to-day practically monopolize the clothing of 90,000,000 Americans. The Jews have likewise gained control of the big department stores, the whiskey trade and the theaters, it is said. "What will Americans control thirty years from now?" some one asks. If the Jews have won this success, it is because of their superior intellectual ability and tremendous powers of application.

When a Jew has acquired property and is in a position to enjoy the luxuries of life, there is no more lib-

eral spender. Until that time comes there is no one so ready to deny himself the little comforts of life, plodding along uncomplainingly for years, until fortune smiles upon him. Nor do the children simply squander what their parents have earned. The boys are trained to take up the work their parents have started, and carry it forward to greater results. If it be true that the Irish, the Germans and the Americans are giving way before the Jews, it is up to the former to take a few lessons in thrift and business management from the latter.

In the labor unions, it is said, opposition to Jews is becoming so acute that Jewish workers have been driven to the expedient of organizing Jewish unions of carpenters, house-smiths and sheet metal workers. When several more of the building trades have been organized with Jewish workers, Max Kasimirsky, general organizer of the United Hebrew Trades, says that President Gompers of the American Federation of Labor, will be asked to take steps for their amalgamation with the unions of men of other nationalities to avoid the competition of rival unions in the different trades. But if the Jewish mechanic makes the same success the Jew has made in mercantile life, we shall soon hear the complaint that he is monopolizing everything in the trades also. [From Leslie's.]

LEMONADE.

(By Walt Mason.) It is a helpful, soothng drink, when flies are bad and days are hot; and whether it is white or pink it always seem to hit the spot. I drink it with the lovely dames where drug store clerks take in the kale; I drink it at the base ball games, at home I sip it by the pail. Of all soft drinks it is the best, as every learned physician knows; it always soothes my savage breast, and gives my warlike soul repose. It takes the fungus from my tongue, and kills the toadstools in my throat; and I feel brave and gay and young, when all my innards are afloat; when they're afloat in lemonade, my head is clear, my nerve is strong; I face my duties unafraid, and put up bay the whole day long. And when the cool, gray morning breaks, I do not see, beside my bed, a bunch of hydra-headed snakes with peagreen antlers on each head. I rise refreshed, so full of vim, and of aggressive strength so full, that when I've sung my morning hymn, I go out doors and whip a bull.

So, it will be seen, Kentucky appropriated \$25,000, while South Carolina appropriated nearly \$5,000,000, and little Maryland, \$3,700,000. The population of Kentucky in 1910 was 2,289,905; South Carolina, 1,515,400; Maryland, 1,295,346.

The total assessed valuation of property in Kentucky during the last fiscal year was \$846,454,020; South Carolina, \$291,531,003.

Further comment seems unnecessary. [Lexington Leader.]

State of Ohio, City of Toledo.

Lucas county. J. S.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. HOW TO BREAK DOG OF THE EGG-EATING HABIT

In the "Poultry Raising" department of the current issue of Farm and Fireside a contributor tells, as follows, how to break a dog of the habit of sucking eggs:

"A neighbor of ours had a young dog which had contracted the bad habit of going to the chicken house and eating eggs. We advised her to open an egg and place inside of it a quantity of cayenne pepper, which we had used on our own dogs with never-failing results.

"She used it, but stated that it had no effect in checking the dog's propensity for eating eggs. I happened to have a little powdered bitter aloes, which I gave her, suggesting that she use it in the same way as the pepper. She did so and reported that the animal never touched another egg afterward."

The Modern Young Man's Slogan.

Edna Ferber, writing a new Jock McChesney advertising story in the June American Magazine, represents Jock as making the following comment:

"These days it isn't so much what you've got in you that counts as what you can bring out. I know the young man's slogan used to be 'Work and Wait,' or something pretty like that. But these days they've boiled it down to one word—'Produce!'"

The doctor's bill may be both robbery and pillage.

KENTUCKY FAR BEHIND IN MATTER OF ROADS**Her People Are All Right, But Should Act In The Premises.**

Why is it that in the nation-wide movement for good roads Kentucky lags so far behind that her people must needs hide their heads in shame?

Surely the old State is as well-to-do as some of her sisters of the South, if not rich in means as most of those of the North and East.

Are we "just trifling," content to float along with the tide which carries people and things into the great gulf of oblivion, or is the curse of cheap politics blighting the Commonwealth?

No, Kentucky is all right, her people are all right, and her future is all right. What is needed is just a little good house-cleaning. Some of these days that job will be attended to and with such emphasis that the politicians will be years recovering from its effects.

The 1914 Good Roads Year Book contains tables showing the funds available in all the States for the improvement of roads during the year 1914, as appropriated by the various State Legislatures. These several amounts are as follows: Alabama, \$700,000; Arizona, \$535,724; Colorado, \$375,000; Delaware, \$11,000; Idaho, \$275,000; Illinois, \$1,300,000; Iowa, \$7,310,000; Kentucky, \$25,000; Maine, \$1,540,000; Maryland, \$3,700,000; Massachusetts, \$2,447,315; Michigan, \$4,183,972; Minnesota, \$5,672,254; Mississippi, \$1,720,000; New Jersey, \$750,000; New Mexico, \$387,194; New York, \$6,000,000; North Carolina, nearly \$5,000,000; North Dakota, \$2,365,000; Ohio, \$3,500,000; Oregon, \$3,288,000; Pennsylvania, \$3,500,000; South Carolina, \$1,000,000; Virginia, about \$2,000,000; West Virginia, \$2,286,557; and Wisconsin, \$1,230,000.

So, it will be seen, Kentucky appropriated \$25,000, while South Carolina appropriated nearly \$5,000,000, and little Maryland, \$3,700,000. The population of Kentucky in 1910 was 2,289,905; South Carolina, 1,515,400; Maryland, 1,295,346.

The total assessed valuation of property in Kentucky during the last fiscal year was \$846,454,020; South Carolina, \$291,531,003.

Further comment seems unnecessary. [Lexington Leader.]

HOW TO BREAK DOG OF THE EGG-EATING HABIT

In the "Poultry Raising" department of the current issue of Farm and Fireside a contributor tells, as follows, how to break a dog of the habit of sucking eggs:

"A neighbor of ours had a young dog which had contracted the bad habit of going to the chicken house and eating eggs. We advised her to open an egg and place inside of it a quantity of cayenne pepper, which we had used on our own dogs with never-failing results.

"She used it, but stated that it had no effect in checking the dog's propensity for eating eggs. I happened to have a little powdered bitter aloes, which I gave her, suggesting that she use it in the same way as the pepper. She did so and reported that the animal never touched another egg afterward."

The Modern Young Man's Slogan.

Edna Ferber, writing a new Jock McChesney advertising story in the June American Magazine, represents Jock as making the following comment:

"These days it isn't so much what you've got in you that counts as what you can bring out. I know the young man's slogan used to be 'Work and Wait,' or something pretty like that. But these days they've boiled it down to one word—'Produce!'"

The doctor's bill may be both robbery and pillage.

those of the bridegroom, who soon after offer the purchase price for the bride in silver, jewels, stufs, food and so on. Each of the girl's parents also receives some special personal gift. On the day when the presents are delivered all the relatives and friends on both sides are invited to a series of festivities and banquets which last several days, being furnished first by one side and then by the other. The eve of the actual wedding, which usually takes place a week later, is spent by the future husband and wife in a vigil, without which it is thought that great ill fortune would follow. Next day the happy couple, with their parents and friends, appear before the priest, who duly unites them. The procession then returns to the house of the bride, where another big feast is held. At the close of the day two old women conduct the bridegroom to the bridal room, where, on a huge bedstead, amid a multitude of pillows, bolsters and coverlets, sits the bride. For three days and three nights the old women stay with them. The couple are hardly allowed to speak, and any advances the bridegroom may make are, according to etiquette, left unnoticed by the coy bride. After this somewhat trying ordeal the old women discreetly retire and the happy pair are left alone to take up the threads of their new life. [World Wide Magazine.]

So, it will be seen, Kentucky appropriated \$25,000, while South Carolina appropriated nearly \$5,000,000, and little Maryland, \$3,700,000. The population of Kentucky in 1910 was 2,289,905; South Carolina, 1,515,400; Maryland, 1,295,346.

COULD SCARCELY WALK ABOUT**And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.**

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst.

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

YET FEARFUL OF WITCHES' POWER

Some Modern Instances
In Point.

A FEW INTELLIGENT PEOPLE
Who Still Stand In Dread Of
Influence Of Evil
Spirits.

YOU'D HARDLY THINK IT, EH?

A woman tried for witchcraft! We hold up our hands and wonder at the bigotry of those narrow-minded Puritans in Salem, Mass. Such a situation seems so remote from anything that would be possible to-day! So we are in the habit of saying, but it is not an impossibility.

Only a short time ago a woman was tried for witchcraft in a court of law in Southern Pennsylvania. That was not the name used in the charge that was brought against her, but that was the accusation that was lodged in the minds of every one who was interested in the case, which was tried in a region so thoroughly saturated with traditional superstitions that not even the present prosperity and general education can destroy them. Technically, the woman was convicted of obtaining money under false pretenses, but actually she was convicted of being a witch—a "hex" doctor who "powwowed."

In the home of a prominent lawyer in Camden county there is a hole in the post-of-a-mahogany-bedstead filled with salt which witnesses to his belief in witchcraft. At one time he prosecuted a case against an old woman who, when convicted and fined, left the court muttering incantations and vowing vengeance. That night the lawyer was suddenly attacked with violent pains in the head. The curse had come upon him and he feared the wretched old woman, whom he believed to be responsible for it. Only witchcraft can drive out witchcraft. No doctor of medicine would do in such a case. A day laborer, who was born with a caul over his face, was brought in through the back door and taken to the bedroom of the suffering lawyer. The electric lights had been extinguished and a candle burned at each side of the bed. Looking at the patient through the veil, which he avers is the identical one that he was born with, the "hex" doctor muttered his peculiar ritual, tied a rattlesnake around the sufferer's neck and bored the hole in the northeast leg of the bed, filling it with salt, over which he had chanted incantations. This done, he announced that the evil powers had notified the witch, who lived in a hut at some distance, that she should no longer hold dominion over the body of her enemy, the lawyer. The patient believed that his pains ceased from that hour.

A prosperous merchant in Carlisle permitted the body of his infant child to be covered with a coating of green paint in obedience to the orders of a "hex" doctor who had been called in to ward off the evil spirits.

A stranger in Carlisle pretended that he had suffered from pain in the stomach which he believed to be due to the evil eye of an old woman of the town who was generally believed to have the ability to exercise this baleful power. A "hex" doctor visited him, and when he thought he had discovered a faith in their mysteries the stranger withdrew and later summoned him to his house, where he was informed that he had discovered that an old witch had made a wax image of the stranger and stuck pins in certain portions of it. Hence the pains.

Could he be cured? asked the patient. The "hex" doctor assured him that his powers were superior to those of the witch, and he undertook to prove it. Getting a wax image, he placed it in front of the fireplace, shoved a brass bullet into an old muzzle-loading pistol and extinguished all the lights but that made by the fire. The doctor knelt upon the floor and the patient was told

to hold his hands upon the seat of his pains. The bullet was then fired into the abdomen of the wax figure, while incantations were said, and the man was assured that he was cured. With all truthfulness he could say that he had no more pain, and for himself had proved the existence of witchcraft in Pennsylvania in the twentieth century. (New York Herald.)

SISTER KILLS BROTHER
OVER A \$20,000 ESTATE

Raleigh, N. C., May 29.—George V. Jordan was killed to-day at Burgeau, his home, by his sister, Mrs. George Sand, who declares that Jordan threatened to kill her and another sister to-day, following a quarrel.

Mrs. Bland has not been arrested. Her story that her brother believed she and her sister had tried to persuade their father to give them his \$20,000 estate is accepted.

She declared that she armed herself and that Jordan came to her room to-day demanding entrance and renewing threats. He broke it open and she shot him through the neck, severing the jugular vein.

NEW MARRIAGE LICENSE
LAW EFFECTIVE JUNE 15

Candidates for matrimony after June 15 will be required to give much more data relative to themselves and their parentage than has heretofore been required by the officers in issuing a license for marriage. Besides the parentage of applicants for license, the physical condition must be stated, and the occupation which the husband follows. The age of each of the applicants must be stated, as well as where they were born, and where they are residing at the time of the application.

The new requirements are in conformity with a bill which was passed at the recent session of the Legislature. As has always been required, the groom will be required to execute a bond for \$100 that he will carry out the agreements of the license as set out in the certificate issued. Provision is made for the proper certification by the officer or minister saying the ceremony, and the issuing by such officer or minister of a certificate of such marriage to the couple.

We will send the Hartford Herald one year and the Atlanta Tri-Weekly Constitution from now until September 15th, 1914, for only \$1.25. Better subscribe now—the sooner you get your name on our list the more Constitutions you get for 25¢ extra.

DIFFERENCE BETWEEN
PREMIUMS AND LOSSES

Louisville, Ky., May 29.—In a statement issued by Chairman Ruby Laffoon, of the State Rating Board, dated May 25, and addressed to the members of the Legislature, the assertion is made that for 10 years, ending with 1913, fire insurance companies received \$33,099,893.00 in premiums and paid out in losses \$16,010,149.00. He embraces in the statement 22 large towns in the State, showing the amount of premiums received and the losses paid out.

In Owensboro for the past 10 years Mr. Laffoon says the fire insurance companies have collected as premiums the sum of \$1,118,517.00 and paid out as losses \$903,734.

Hot Weather Tonic and Health
Builder.

Are you run down—nervous—tired? Is everything you do an effort? You are not lazy—you are sick! Your stomach, liver, kidneys and whole system need a tonic. A tonic and health builder to drive out the waste matter—build you up and renew your strength. Nothing better than Electric Bitters. Start today. Mrs. James Duncan, Haynesville, Me., writes: "Completely cured me after several doctors gave me up." 50¢ and \$1.00, at your druggist. Bucklen's Arnica Salve for cuts.

His Reason.

"So," said the visitor, "you intend to become a physician when you grow up?"

"Yes, sir," said the youth.

"And why have you decided upon the medical profession?"

"Well, a doctor seems to be the only man that keeps on getting paid whether his work is satisfactory or not." (Ladies' Home Journal.)

From Many Lands.

It is estimated that there are nearly one million lepers in India, China, and Japan. Concerning them the Christian Worker says: "The great majority of these are miserable outcasts whose religion affords them neither help nor hope and whose friends leave them to beg or starve." Twenty-five dollars a year will support one of these adult lepers in a mission asylum, and twenty dollars a leper child.

THIS COUNTRY'S BUTCHER'S BILL

In the Human Line Is
Frightful.

MORE THAN 18,000 HOMICIDES

In Two Years in United States
—Almost Equals Civil
War Killings.

CHICAGO IS THE FATAL CITY

In a recent address the Dean of the Law School of the University of Michigan is reported to have said:

"During the year 1912, within the boundaries of the United States, there were 9,152 men slain in violation of law by their lawless fellows. This number is greater than ever before has fallen by the hands of the lawbreaker. In 1910 8,970 were killed."

Vital statistics of the Census Bureau cover a registration area of 25 States, in which is a population of about 60,000,000.

The bureau shows the number of homicides per 100,000 of population as follows:

Homicides per 100,000—

1911... 6.6 1905... 4.5 1900... 2.1

An increase of 214 per cent in 11 years is little cause for pride. We have before this become indignant at Armenian and other massacres in other parts of the world. Do they equal our own shambles? Count the number of Union soldiers actually killed in the nine greatest battles of the Civil War, including Gettysburg, Spottsylvania, the Wilderness and Antietam. The total is equaled by the fruits of two years of murder in this "law-abiding" country.

Mr. Taft once said that our administration of criminal law was a disgrace. It is more than that. It is an invitation to crime. In two years it has resulted in over 18,000 homicides. Two years ago the Supreme Court of Oklahoma, in handing down a decision in a criminal case, took occasion to speak in plain terms of the administration of criminal law in America. And it referred to the fact that in the city of Chicago 202 homicides were committed in 1910, but in that year only one person was sentenced to death for murder.

"I see it now!" exclaimed I-Want-To-Do-Something-Different. "And I'm with you! Here's to both of us together—a new combination to promote the higher inefficiency!" (Life.)

Mr. Taft once said that our administration of criminal law was a disgrace. It is more than that. It is an invitation to crime. In two years it has resulted in over 18,000 homicides. Two years ago the Supreme Court of Oklahoma, in handing down a decision in a criminal case, took occasion to speak in plain terms of the administration of criminal law in America. And it referred to the fact that in the city of Chicago 202 homicides were committed in 1910, but in that year only one person was sentenced to death for murder.

It is time for a radical change in the administration of criminal law, which has ramifications in every branch of activity and growth. There is room for a great change in the moral sense of our people, who lack, most of all, teaching in respect for the law. (Wall Street Journal.)

Take Plenty of Time To Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

Victim of Pellagra.

Marion, Ky., May 23.—Mr. H. S. Driver, of this city, who went to Evansville last week to have diagnosed a peculiar disease which had affected him recently, was told by Dr. Edwin Walker, of Walker's Sanatorium, that he was afflicted with pellagra, and that his disease was incurable.

This is the first case of pellagra so far reported in Crittenden county. A similar case was reported in Caldwell, a neighboring county.

Lippincott's For June.

The June issue of Lippincott's offers a plentiful supply of cheerful fiction timed to the season, and much other matter to beguile the first outdoor days of the year. The never failing complete novel is by a comparatively new writer, Jeannette L. Helm. It is entitled "Marcelle," the name of the heroine, a pretty musical-comedy actress who loses her singing-voice and is thus suddenly deprived of her means of livelihood. Temptations assail her and difficulties beset, not only in New York's "Great White Way," but elsewhere. Her experiences are woven into an exceptionally lively and interesting plot, which Miss Helen has handled with great skill and charm.

The local color, and especially the theatrical scenes and characters, are depicted with marvelous fidelity.

"Pollyanna," the Glad Book, has been so widely praised that readers everywhere will welcome a new story by its author, Eleanor H. Porter. Her lastest story, which will be found complete in this number, is called "One Woman's Will and Way," and possesses all the cleverness and humor that have characterized her former stories. Another striking story is "Mellon Drops a Partner," by Will Lexington Comfort, who wrote "The Road of Living Men" and "Routledge Rides Alone." Anne Hollingsworth Wharton, who wrote "A Rose of Old Quebec," contributes a delightful travel story. "A Captain's Dinner." Crittenden Marriott, author of "Sally Castleton, Southerner," is responsible for a very unusual tale called "If a Man Die—." "Why My Husband Left Me," by "Mabel Van de Wurner," is an hilariously funny satire on the modern art craze. "The Lost Idea," by Thomas L. Masson, is a fictional sketch on original lines. "The Vase or the Statue," by Rose Lombard, is another sketch of unusual merit.

HOW IT CAME ABOUT AS
TO TWO PERSONALITIES

I-Want-To-Be-Somewhere-Else and I-Want-To-Do-Something-Different met and talked it over. "If we can combine," said I-Want-To-Be-Somewhere-Else, "we can conquer the world."

"Aren't we doing fairly well as it is?" said I-Want-To-Do-Something-Different. "We cover the ground pretty thoroughly as it is. You keep everything moving generally, and I control the women and the school system."

"But," replied I-Want-To-Be-Somewhere-Else, "you forget that under the present regime something is occasionally done. But if we get together, nothing could be done. When they tried to follow you, I would be on hand to keep them from doing it. Thus nobody would ever get anywhere."

"I see it now!" exclaimed I-Want-To-Do-Something-Different. "And I'm with you! Here's to both of us together—a new combination to promote the higher inefficiency!" (Life.)

Paw Knows Everything.

Willie—Paw, what is a martyr? Paw—A martyr is a man who helps his next door neighbor mend his phonograph, my son.

THE COMING ASSEMBLY OF BAPTIST WORKERS**At Dawson Springs Promises To Be a Very Enjoyable Meeting.**

For four years the Baptists of West Kentucky and other sections of the State have met together at Dawson Springs to listen to the great Baptist leaders of the South. This meeting has grown in interest till last year it reached the high water mark, and over five hundred people assembled to hear these great men.

The date of the meeting this year is June 28 to the 3rd of July, and it is hoped that at least one thousand people will avail themselves of the opportunity to attend. Every effort has been put forth to make this meeting not only the equal of last year, but, if possible, to surpass it. With such as Mrs. Kate Hinkle, Miss Leachman and Miss Brenckmann to represent W. M. U. work, Rev. Harvey Beauchamp, N. T. Barnes and Miss Brenckmann for S. S. work, Mr. Arthur Flake and Mr. N. T. Barnes for B. Y. P. U. work, as well as our own Drs. Powell and Perkins of Kentucky, and Drs. C. B. Williams and Mr. H. Z. Duke and Dr. J. B. Campbell, of Texas, who will represent other Baptist interests, we have no idea of failure in reaching this high standard.

In addition to the above attractions, we have secured Mr. and Mrs. Scholfield, the Gospel Singers, so well known in the South, to lead the music.

At this time rates will be obtained at the hotels and also on the railroads, making the opportunity a splendid one to enjoy the healing waters of Dawson Springs and the many advantages of the Assembly. Certainly every Baptist pastor and Superintendent in West Kentucky should attend and bring large delegations of their people. Every phase of denominational work will be discussed.

From this Assembly we are sure that great good will come to all organizations represented. Brethren, decide at once to come and make your plans accordingly.

For general information write to J. J. Gentry, general manager, 205 East Chestnut St., Louisville, Ky.

BEAVER DAM.

June 1.—Mrs. Ella Turner and G. C. Rowan and little daughter, of Livermore, Ky., visited Mr. and Mrs. Beck Maddox last week.

Mrs. Claud Chick and children, of Louisville, are visiting Mrs. Chick's father, Mr. J. D. Williams.

Mrs. Duck Medcalf, of Morganfield, Ky., is visiting old friends in town this week.

Mr. and Mrs. Scott Likens visited in Caneyville last week.

Miss Bessie Williams, cashier of the Barnes store, is visiting her brother, Morton Williams, of Daniel Boone, Ky., this week.

Mrs. W. T. McKinney, who has been attending commencement exercises at Ward-Belmont College, Nashville, Tenn., has returned home. Her daughter, Miss Ella, who has been a pupil in that institution the past year, accompanied her home to spend vacation with her father and mother.

CLEAR RUN.

June 1.—The farmers are getting anxious for a good rain.

Rev. A. Mauzy, of Owensboro, delivered two interesting sermons at Clear Run church Saturday and Sunday nights.

Several from this place attended the singing convention at Nocreek Sunday.

Miss Ethel Gates, of Indianapolis, Ind., who has been visiting relatives here, spent a few days with her cousin, Miss Ethel Funk, last week.

Mr. and Mrs. J. T. Funk spent Sunday with their nephew, Mr. Charlie Freemster, of Sunnydale.

Mrs. John Park is visiting his daughter, Mrs. Ion Sinnett, of Evansville, Ind.

Mr. Ottis Taylor and sister Gertrude, of Taylorfield, visited relatives at this place Saturday night and Sunday.

Mr. G. M. Hoover, wife and baby Lucile, of Knotsville, are visiting relatives here.

Mrs. A. T. Handley and son Thom-

as left Saturday for Owensboro. They will spend a few days with Mrs. Handley's daughter, Mrs. Thos. Hamilton, of Indianapolis.

Prof. Forrest Salmon and wife, of Utica, spent Saturday night with J. E. Funk and wife and attended the singing convention at Nocreek Sunday.

On account of next Saturday being decoration day with the Woodmen of this place, the regular church meeting will be at 11 a. m. and the decoration will take place at 2 o'clock p. m.

Mr. Ike Sharp, of McHenry, passed through this place this morning on business.

Miss Boota Sharp, of Pleasant Ridge, spent a few days with Mr. Cicero Wade and wife last week.

SMALLHOUS.

June 1.—Mr. Oppie Kittinger went to Bowling Green Sunday.

Several from this place attended the singing convention at Nocreek Sunday.

A nice rain fell here yesterday afternoon and evening which was very much needed and for which we are truly thankful.

Dr. E. W. Ford with his Sunday School class from Hartford are in our town, camping and fishing.

Mrs. Will Nichols and daughter Ruby, of South Carrollton, were the guests of Mrs. Oppie Kittinger and Mrs. Clinton Iggleheart recently.

Mrs. Oppie Kittinger, daughter Gladys and little Miss Rhea Iggleheart attended commencement exercises at Hartford last week.

Mr. P. L. Wood and wife, Ceralvo, were guests of Mr. and Mrs. J. C. Drake Sunday.

Mr. Seymour Bennett and wife spent Saturday and Sunday with Mr. and Mrs. Governor Brown, of Providence vicinity.

Mr. S. E. Hunter and Miss Virgie Bennett visited near Beda Saturday night.

SACRIFICE LIVES TO SAVE THEIR FRIENDS**Heroic Act of Three Pennsylvania Young Men—Lovers Separated.**

Philadelphia, May 31.—Sacrificing their lives in order that the lives of four companions, two of them girls, might be saved, three young men, none of whom could swim, leaped into the Delaware river from a sinking rowboat yesterday and were drowned.

The story of their sacrifice was told to-day by the survivors.

The dead are John Mouchech, Raymond Tinney and John Murphy. The saved are George German, Sarah German, Mary German and John Nevill. All reside in the northeast section of this city, ranging in age from 16 to 26 years.

Tinney and Sarah German were engaged to be married. Accompanied by the other members of the party they visited Cramer Hill on the New Jersey side of the river yesterday and hired a large flat-bottomed rowboat. They were more than 100 yards from shore when it was noticed that the craft was rapidly filling with water from a loose board on the bottom.

Despite the efforts of the seven occupants to bail the boat with their caps it soon became evident that unless the load was lightened the boat would sink before the shore could be reached. None of the party could swim but all the men volunteered to jump out that the others might be saved. Sarah German begged Tinney not to risk it but he was the first to spring over the boat's side, quickly followed by Mouchech and Murphy.

In spite of the heroic sacrifice the boat was capsized shortly after the three men had disappeared in the water and the four other occupants were thrown into the river. Nevill and German, however, succeeded in clinging to the overturned craft and grasping the girls as they were about to sink for the second time, held them until the party was rescued by a motorboat.

Cures Stubborn Itchy Skin Troubles

"I could scratch myself to pieces" is often heard from sufferers of eczema, tetter, itch and similar skin eruptions. Don't scratch—stop the itching at once with Dr. Hobson's Eczema Ointment. Its first application starts healing; the red, rough, scaly, itching skin is soothed by the healing and cooling medicines. Mrs. C. A. Einfeldt, Rock Island, Ill., after using Dr. Hobson's Eczema Ointment, writes: "This is the first time in nine years I have been free from the dreadful ailment." Guaranteed. 50¢ at your druggist.

FINE TRAINING SCHOOL FOR CHRISTIAN WORKERS**Summer Session For Sunday School People At Lexington, June 11-19.**

Preparations are being made for a Training School for Sunday School workers to be held in Lexington, Ky., June 11-19, 1914, under the auspices of the Kentucky Christian Bible School Association to which the Disciples of Christ throughout the State are looking forward as one of their most important religious events of the year. Courses will be offered in Bible Study, Religious Pedagogy, Child Study, Sunday School Administration, Missions and Social Service by a strong faculty composed of four college professors and as many Sunday School specialists.

A feature of the program will be three simultaneous departmental sections under competent supervision, giving training in the special work of the Elementary, Secondary and Adult Divisions. The normal of each day will be devoted to class work, the afternoon to study, conference and recreation, and the evening to special lectures and the departmental sections.

The faculty as announced by the Dean, Walter E. Frazee, of Louisville, who as State Superintendent of the Kentucky Christian Bible School Association is arranging all the details of the school, is as follows:

F. E. Lumley, Professor of Social Service and American Missions in the College of Missions, Indianapolis, Ind.—Instructor in Missions and Social Service.

E. E. Snoddy, Professor of Philosophy in Hiram College, but called to the College of the Bible, Lexington—Special Lecturer.

W. C. Bower, Professor of Religious Education in the Bible College, Lexington, Ky.—Instructor in Religious Pedagogy.

Miss Hazel A. Lewis, Elementary Superintendent of the Bible School, Department of the American Christian Missionary Society—Instructor in Elementary Division and Missionary Methods.

Miss Cynthia Pearl Maus, Associate Editor Bible School supplies, Christian Board Publication—Instructor in Secondary Division.

W. J. Clarke, Superintendent of the Bible School Department of the American Christian Missionary Society—Instructor in Adult Division and Administration.

All sessions of the school will be held in the chapel and class rooms of the College of the Bible, while the students will be entertained in the dormitories of Hamilton College.

This is the Third Annual School of this character held by the Association. Over two hundred and fifty students were enrolled last year, representing 119 churches. A class

Highest Market Price Paid for all Kinds of Produce

Sale Begins June 1

H. D. Burch, Dans, Ky.

of 106 took the complete course and received International certificates, which has the record of being the largest class graduated among the Disciples of Christ. Preparations are being made for over three hundred this year.

HOPEWELL.

June 1.—Mr. Elijah Williams has been very sick for over a week and is not able to be up yet. He is 81 years old.

Mrs. J. R. Shull, who has been

sick for some time, was better last week, but is not so well at this writing.

Mrs. Mary Barnett and little boy, of Beaver Dam, are visiting Mr. and Mrs. P. S. Coleman.

Miss Carrie Shull, after a two-weeks visit with her aunt, Mrs. Louise Rock, of Wysox, returned home last Sunday, accompanied by her aunt, who will spend a few days with her sister, Mrs. W. D. Shull.

Mr. Alec Russell and family, Mr.

and Mrs. Laton Williams, Mrs. Ed. Williams and daughter, Miss Maggie, went over the river last Wednesday fishing. They report a nice time but not many fish.

Little Master Darrel Cummins, who has been very sick for several days, is improving.

Misses Ethel Hunley, Beulah Miles and Margaret Taylor attended the commencement at Hartford last Thursday and Friday. They say it was grand.

Seventh Annual Celebration Sale Began Monday, April 13, at 8:30 A. M. and Brings Savings Unequalled In Our History**SEND US YOUR MAIL ORDERS**

And we will fill them promptly and with the greatest accuracy. Our Mail Order Department is in the hands of expert shoppers, who are thoroughly capable of handling your transactions to your entire satisfaction. Write for our attractive booklets of the newest Spring Silks, Dress Goods, Infants' Wear, Etc.

Monday we began our Seventh Celebration Sale to fittingly commemorate the period of our occupancy of this building, and we have every reason to believe it will eclipse anything of its kind ever held in Louisville.

This store, which has for over sixty years been known as the South's leading department store, was forced to seek more commodious quarters, owing to such a largely increased business. As a result we now possess one of the most representative plants in the United States, containing, as it does, nearly seventy complete departments, and being a part of the greatest buying organization in this country.

We have spent many weeks in preparing for this event in order to make it supreme in point of magnitude, varieties and values involved, and we now have ready for you the most tempting of offerings in seasonable merchandise.

PARCEL POST

We prepay by parcel post all parcels that come within the postal regulations, not exceeding eleven pounds in weight, to all points in the first, second and third zones, from Louisville. When ordering give rural route number.

THIS SALE CAN SUPPLY YOUR EVERY NEED AT A SAVING

The scope of this sale is so large that it is intended to supply everyone's needs at a saving, whether that need be for the most inexpensive of merchandise, or for the handsomest procurable. You should make it a point to attend as frequently as possible. Extra salespeople will be on hand to serve you.
